

We offer the best quality at a faire price.

According to the great demand we buy, sell and rent out new and used EUR pallets and EUR box pallets. Moreover we rent out VDA-R- and VDA-RL-KLTcontainers with our container management system.

The rental system is even more attractive, if you need a lot of charge means relatively fast, but can't invest in own EUR pallets, EUR box pallets or KLT containers for financial reasons.

Thanks to our long standing experience in this industry we can offer our customers best quality to fair prices for each demand profile.

Therefore we are always looking for small and also bigger sets of EUR pallets and EUR box pallets. We are reliable, quick and cooperative considering prices. You yourself are a supplier? Contact us – we are very interested in efficient collaborations.

We would be glad to compile an according offer for our clients in all three sectors of our operations.
