

We expand with a new company.

You are looking for used or new charge carriers? Then you are on the right track! Since we are constantly expanding and have gained a good reputation in the business thanks to years of experience, our company transportmittel.org UG will soon be available to you under the domain www.transportmittel.org.

This will give you the opportunity to place adverts for used and new containers and to offer containers for sale and rent. Needless to say you can also assign inquiries to manufacturers and dealers on our site. In addition, we make it possible for repairers, cleaning companies, manufacturers and dealers to provide their services.

If it is about EUR pallets, EUR box pallets, steel tanks, plastic pallets, KLT containers and other charge carriers, do not look any further. Use our multi-purpose website – you can only profit from it!
